## Natal Chart Report

---

### Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30

days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

### Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the

first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

## Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences

while positive numbers show more flowing, easy energy.

This is a wide table that may require you to scroll right on smaller screens.

## Natal Chart Report

### BIRTH CHART

This birth chart report shows the positions of the planets for Lucky.

### The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

### The Sun is in Leo

There's an unmistakably regal air to Solar Leos. These are dignified--even noble--folk. Leos have a reputation for being conceited, but think again. Leos do feel important, but it's usually because they want to change the world in some way--to make the world a better place. They are motivated by affection for people and often have big dreams and plans to make people happy.

Leos are hard-working. After all, they are attracted to the good things in life and know they have to work to get them. It is sometimes difficult to imagine Leos as go-getters if you happen to catch them in one of their languid moods. These people can sleep in, laze around, and luxuriate for long

periods. However, when they do get to work, they do it with intensity and determination. In this way, they are not unlike their symbol, the lion.

The worst thing you can do to a Leo is accuse them of bad intentions. Displaying behavior that makes them think you don't appreciate them runs a close second! These happy, jovial people become mighty hurt when others don't see them for their noble intentions.

Loyal, and sometimes rather traditional, Leos are, after all, a Fixed sign. They'll hold on to situations and people for a very long time before they give up.

There is an unmistakable idealism to Leo's view of the world and the people in it. Often, Leos have a very noble inner code that they answer to. Although Leos appear rather confident on the surface, they can also be humble. They are the first to blame themselves when something goes wrong. Once again, it's Leonine self-importance at work, and this characteristic works in unexpected ways. Instead of being the conceited, self-absorbed show-offs of reputation, they can be very self-aware, self-conscious, and, yes, even humble.

Short description:

He is masterful, brave, and competitive, he likes authority, he aspires toward an ideal. He likes to give advice. He is honest, frank, loyal, open, and sincere.

Possible issues: pride, vanity, arrogance, presumption, and disdain for others.

Leo with a Sagittarius Ascendant

This is a double dose of Fire. He is passionate, self-important, fiery, vital, and charged. His sincerity is notable and attractive. He meets the world directly and straightforwardly, and his charm is hard to resist. He wants quick results. Enthusiastic. Losing is NOT an option, so he keeps on trying. He needs to take the time for reflection and self-soothing, calm, objectivity. He is open, vibrant, and somewhat theatrical. He seeks people who are truthful. He lives his truth, delivering good vibes to the world.

### Sun in IX: The Sun is in the ninth house

You have a deep need to understand the world around you. You have high ideals and your eye on what's on the horizon. As you so frequently look ahead, you can seem quite restless. You're proud of your knowledge, mind, and morals. Advice: Avoid self-righteousness in your enthusiasm to share your knowledge. At your best, you are a tolerant, adventurous, and curious person, and you want to see the best in people--and in life itself.

Key points:

He takes an interest in different cultures or has a spiritual side. He is enthusiastic and excellent at promotion or marketing. He believes that things will work out and in spiritual protection.

### 17 Trine between the Sun and Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people.

You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to most people, and your self-

confidence and security make you easy to deal with on many levels.

Your relaxed, easygoing disposition puts others at ease. Your "default setting" can be unprepared for conflict, and you often avoid "rocking the boat." You may acquiesce to others a little too often, if only to maintain balance and harmony, as you prefer to avoid conflict.

This influence brings a tendency toward too much acceptance--of the self and others. You may need prompts and encouragement to question life, or you risk taking things for granted.

Your vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the ups and downs that often plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and emotional needs differ, they are largely in harmony.

Short description: Well-rounded and harmony-oriented. He has lots of vitality and more potential than he may realize. He likes public life; he is popular, and others appreciate his company. He is balanced, at ease with himself and usually gets on very well with his parents or guardians. He makes a good guide or mediator.

-158 Square between the Sun and Jupiter

You have abundant optimism. Even with ups and downs, you tend to hook onto a new plan or goal and believe in it wholeheartedly. Although your intentions are good, you often overdo things. For example, you might gloss over realistic details and get into debt, overindulge in pleasures, or promise more than you can deliver. For the most part, you find help for your excesses. Somebody's usually there to help, as most believe your heart is in

the right place. While this is usually the case, if excessive behavior becomes a pattern and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system," relying on others to help you out a little too often.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Your good humor and resilience are admirable. The tendency to live beyond your means can remain a potential threat that you might struggle with for much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods are so marked that they seem unnatural, and a fall seems inevitable. You can make promises you intend to keep but need help with follow-through. Self-control is something you learn with time and experience. Your talent lies in the big picture or the great idea. Knowledgeable and generous with your time, you have many talents that you shouldn't take for granted.

## The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

## The Moon is in Pisces

Lunar Pisceans are known to be dreamy and not always in touch with reality. However, though these people may not always show real-world savvy in day-to-day, practical affairs, they make up for this with remarkable intuition. They can put themselves into anybody's shoes with extreme ease. On the plus side, this endows them with remarkable compassion and love. The

downside of this apparent ability to break down boundaries is that they can easily lose themselves in the suffering of others.

Their sense of humor is delightfully silly and a bit odd. These are perceptive souls who seem to be in touch with all the nuances and subtleties of human nature. Often this comes through in a strong sense of humor that is more of the receptive kind than the type of sense of humor that would make people the "life of the party." It's generally pretty easy to get them giggling.

Moon in Pisces people may get tagged as spaced out, but there's much more to them than meets the eye. They feel things out and rely on their intuition--it just doesn't feel right for them to do otherwise. Their dreaminess can mean plenty of moments of absent-mindedness. These times of oblivion can land them in all sorts of predicaments with others who can too easily misunderstand these complex souls.

Without plenty of space and time to daydream, Pisces Moons easily get overloaded with life. Give them room to be alone with themselves, and they're generally able to take on the world--even if their style is not always conventional or understandable when they do so.

Generally considered soft-hearted and sweet, Lunar Pisceans care about others and are easily touched by human suffering. This tendency gains them the reputation as suckers for sob stories. Although this may sometimes be true, many Lunar Pisceans learn, in their lifetimes, how to discern between sincerity and manipulation. Still, they definitely do have plenty of soft corners.

In personal relationships, Lunar Pisceans are giving and yielding. They are generally open on a sexual level, quietly. Their fantasies can be far-reaching, intricate, and rich with emotion. Love is closely tied in with their sexuality. Most Lunar Pisceans are shy; they need a trustworthy lover to bring them

out.

There's a delightful accepting side to Moon in Pisces that is sometimes mistaken for weakness. Pisces is the twelfth and last sign of the zodiac and thus carries with it a little of each sign of the zodiac. As a result, they see themselves reflected in the behavior of others, giving them seemingly boundless compassion. Since the Moon represents our instinctive nature, Moon in Pisces seems to know how things feel without actual experience. The ones that aren't too shy make awesome actors and actresses. This ability to empathize even in the absence of experience gives them an open mind and heart. Most long to express this through writing, music (both listening and making), poetry, and art -- in fact, the happiest people with this position do just that.

Most Pisces Moon people instinctively know when they're due for a much-needed recharge. It's at these times that they retreat from the world (and its harsh realities) only to gather the strength to face everything and everyone again. Solitude is important to them, but they also need people, so their retreats will usually be short-lived. Pisces Moon individuals believe, and, let's face it, the world needs Piscean leaps of faith.

Short description:

Imaginative, sharp insights. He is impressionable, with abundant imagination. Gentle, warm, humorous, artistic.

Potential issues: troubles caused by too much sentimentality, worries, problems, unhealthy imagination, escapism, and nervousness.

### Moon in IV: The Moon is in the fourth house

He likes family life, peace, and quiet -- he likes to stay at home, surrounded

by loved ones, in agreeable circumstances. Strongly influenced by the early environment and mother or takes after the mother.

You long for a sense of true belonging but may be restless in your search. You might change residence frequently or feel the need to make many changes in your home. Moving often may be a healthy thing if it keeps you emotionally stimulated, but if you find that you do so on whims and later regret the changes, you might want to treat it as a symptom of emotional unrest--as a sign that you are in a constant search for the perfect mood and setting, when in fact you might work on your feeling of belonging from the inside out, not the outside in!

It's possible you remain rather immature or irresponsible emotionally, never wanting to truly grow up and take care of yourself. There can be some mistrust of those in authority. Attachments to your past, traditions, and family are strong. You play it safe with money--and your heart! Inheriting the family home, working from home, a family business, or following in parents' footsteps can be themes. The memory is like an elephant.

#### -6 Opposition between the Moon and Venus

Because you value harmony, you may find yourself giving in to others too easily, especially in the first half of life. Resentment is possible, as you can feel that you are the one who seems to do all the acquiescing. There can be a distinct tendency to become friends (and lovers) with people too readily, simply because there is a strong need for approval and a hunger for receiving affection. As such, you may get involved with people who seem to really like you, and you fail to consider whether you actually like them back! It's somewhat of a weakness, as you are very charmed by the idea that someone seems to really like and appreciate you. Generally, one of your life's lessons is to learn to discriminate more and to get in touch with what you truly want and need. The functions of the Moon (which rules the

emotions and feelings, amongst other things) and the functions of Venus (which rules social relationships, harmony, and partnership, amongst other things) are at cross-purposes. When you attempt to feed the needs of one function, it is often at the expense of the other, until you find some sort of balance. This can play out in a variety of ways. For example, there can be conflicts in partnerships about parenting or whether or not to have a family. You may find yourself compromising your own emotional needs in order to find and keep love. Peace and harmony are important to you--perhaps too much so, as you can easily be taken advantage of. Insecurity is something that you need to deal with at some point in your life. Very sensual, you sometimes replace love with food or shopping! You can also be quite sexually active and sometimes quite lustful. You possess a distinct lazy streak. You are capable of working hard, but you truly appreciate luxuriating and enjoying as many pleasures as possible, and self-discipline simply isn't always at your disposal!

While he is usually sweet and gracious, he can also be inconstant and capricious at times, possessing a changeable nature. A varied love life, ups and downs, unusual ideas.

#### 124 Sextile between the Moon and Uranus

He is imaginative and benefits from the Moon's intuition complemented by Uranus' independence and originality. His life is out-of-the-ordinary, with lots of changes and a great knowledge of the world not necessarily through reading but through personal experience and brilliant intuition. He likes the sensational, new things. He acts instinctively, but fortunately has a good sixth sense. He likes to be surrounded by original people, artists.

#### 12 Sextile between the Moon and Neptune

Positive aspect: He is kind and sympathetic, with a strongly compassionate

nature. When in love, he is usually very devoted. In fact, he is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to his nature. He has a natural affinity to music. While everyone enjoys music, people with Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and to uplift the soul.

Naturally perceptive, without even trying he tunes into the feelings of others, and the mood of his surroundings. There is a distinct emotional need to escape into the world of imagination, and to withdraw from others at times when he needs to re-center himself, largely because he tends to "take in" a lot of mixed energies from his surroundings. Strong and sudden "feelings" and hunches can overcome him. More often than not, his intuition is correct, although his imagination is also powerful and he can read too much into a situation as a result.

Some laziness is associated with this position. This stems from a natural timidity and sensitivity that is apparent from youth. He may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" him from situations that required boldness or aggressiveness. Thus, passivity was accepted and, as adults, he may be less experienced than most when it comes to reaching out or going after what he wants.

### 130 Trine between the Moon and Pluto

He can waver between a rich and successful domestic life and social success, perhaps having difficulty succeeding at both. Very perceptive and given to psychoanalyzing people. A strategist. Powerful emotions and intense feelings.

## Mercury

Mercury represents communication, Cartesian and logical spirit.

### Mercury is in Cancer

He communicates with feeling, endearing others with words. He is reflective and has one of the best memories around. He feels people out and can be quick to pick up emotions and moods. He is discerning and full of insight, lucid, and thinks things through. He likes to please and to create a good impression. There can be a strong tendency to be influenced by those around him.

### Mercury in VIII: Mercury is in the eighth house

He likes research, investigations, inquiries. Studies well.

He is fascinated with all that is unexplored, mysterious, taboo, secret, and psychological. He loves research and has a great mind. He wants to know the motivation behind what people do. May have a good mind for financial strategies. He may be tormented at night, unable to turn off the mind to rest deeply at times.

You speak with authority and others listen, having strong persuasive powers which should be used carefully. You tend to feel that everything we do and experience has a purpose. You have a great, investigative, and penetrating mind and you are excellent at developing strategies, as well as communicating them with others.

### 126 Sextile between Mercury - Venus

He looks on the bright side of life. He is gay, agreeable, optimistic, sociable. He enjoys speaking and writing, and he does both with charm and artistry.

His intellectual pleasures are very much influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts, travelling, frequent changes of scenery. Aims always for diplomacy. Very charming.

#### 39 Trine between Mercury - Saturn

He is precise or strives to be mentally organized. He is able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. He may take time to get communications "just so" and prefers step by step directions. Respects tradition and rules, preferring a sense of order.

#### -47 Opposition between Mercury - Uranus

He likes debate and controversy, and, above all, to contradict. He may lack diplomacy and tends to dissipate his energy. He cannot stay in the same place for too long, especially mentally, preferring change even if it means a backward step in his career.

#### -94 Opposition between Mercury - Neptune

He misjudges, but very imaginative. He lets things happen, and is happy to stay in his dreamworld. Confronted by reality, he is hesitant, anxious about being tested and can fall back into his imaginary world.

#### 13 Sextile between Mercury - Lilith

Can be provocative in speech or communications, persuasive, interesting conversationalist, quick to see the flaws of a situation.

## Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

## Venus is in Virgo

Venus in Virgo people are not the flirtatious sort. Instead, their appeal lies in their dedication, their willingness to work on the relationship, and to make the relationship work in real terms. Unlike Venus in Leo, they won't try to impress you with grand gifts or promises. Their gifts are less showy, but perhaps far more generous -- gifts of devotion and attention to details about you. Venus in Virgo natives quietly (and often slowly) make their way into your heart. They are quite sensitive in love -- even insecure -- and this reserved, loner-like quality is part of their appeal. They prefer to play it safe in their relationships, and they need to be confident that you like them before they make a move. They are great listeners and they make it a habit to observe and learn all of your ins and outs. Their love can be of the Kindergarten variety -- they show they care by nagging or criticizing. Remember, though, that they are not trying to hurt you when they are pointing out the flaws in your thinking, plans, or even character. They truly are trying to help! Venus in Virgo is attracted to nondescript people who have largely gone unnoticed. Show-offs and know-it-alls turn them off.

Pleasing Venus in Virgo involves showing you appreciate them for all the little things they do -- and they do a lot. The problem is, they do these things so quietly that you may not always notice or credit them for all these kind gestures. They do need some space (after all, they're generally quite busy making everything work), so give it to them. Be genuine, not ostentatious. They are really not difficult to please after you have taken care of these basic needs. Avoid pushing your friends or family on them too fast - - remember they are a little shy. They aim to please, and are easily intimidated by your experiences. Let them know how much you value them,

and they will reward you with devotion and a charming willingness to talk things out.

Short description:

He is very devoted, but may not always show emotions; he doesn't always let himself go, either through fear of ridicule or through fear of not being loved in return as much as he loves. He is therefore sometimes too undemonstrative. May give off the sense that his love is not for free. Caring but worries that he is not exciting enough. Careful with money.

### Venus in X: Venus is in the tenth house

His best years may be in the parental home and also the last years of life. That said, the rest are not unhappy, but contain certain hurdles. Love can help in the professional life; he has a gift for seduction. He likes to entertain; he likes the comfort and attractions of home life.

Others tend to respect you for your charming manner, and you have many admirers, although some of these are admirers from afar, as there is an aura about you that is charming yet strangely (and intriguingly) distant. You have a great need to be recognized or admired for your charm, beauty, or loving manner, but should be careful not to become too wrapped up in what others think of you, as you might come across as phony or superficial. Some people with this position are "married" to their work or to their image. You are good at making contacts and organizing social events.

-49 Square between Venus - Mars

Whether it's an infatuation or a full-blown love affair, relationships get you out of bed in the morning. You are passionate and seem to need an active romantic and sexual life to drive you. Often, this area of life is somewhat

challenging, especially in youth. As much as you want to be involved in a passionate affair, your timing can be off and/or it's difficult to find a relationship that mirrors your strong desires and expectations. Especially when you are young, there can be a real awkwardness with your social skills--this may or may not be apparent to others.

You are highly creative and generally are driven to express that creativity. Your passion for romance is often channeled into your creative output. For example, challenges in relationships may be a large part of the drive behind your poetry, music, or other art.

Love and hate are very much mixed together for you. You are prone to love-hate relationships with others, likely because your passions are such that the old saying "there's a fine line between love and hate" rings especially true for you. Some level of competitiveness, anger, frustration, or angst is present in your romantic relationships. Although you are quick to anger, you are generally just as quick to forget about it.

Short description: While he is passionate, he likes carnal desires and voluptuousness above all. He may go to excess and can often be unsatisfied. Should probably learn moderation.

-34 Opposition between Venus - Saturn

He is hard or reserved at times, and doesn't always know how to express his emotions. He may be frightened of showing his love, and this can lead to disappointments, break-ups, lack of satisfaction. He has doubts, can be suspicious, worries too much, possibly jealous but more likely insecure. He will learn how to be happy in love, to be at ease with himself and to control his jealousy or gain more assurance and sense of self-worth in the second half of his life, possibly thanks to a mature person, who helps him learn to trust.

## 11 Trine between Venus - Uranus

Independent in love. His love life is rich, but possibly with passing love affairs. He can tire quickly and can be scared of losing his liberty. Traditional marriage may not be for him. He has that little something that attracts others. He likes amorous adventures or unusual pastimes, he is romantic, although a little detached or unpredictable. He is the eternal lover and is more likely to break something off than live untruly. He likes art, anything new.

The ability to get along with--and accept--people from all walks of life as friends is strong with this position. He can readily see through insincerity in others. In relationships, tolerance is the most important "ingredient" to him. His sexual preferences can be somewhat unconventional, and he may not be happy with a partner who tries to limit his sexual expression. He is usually quite capable of maintaining relationships that require a great deal of freedom and tolerance, such as long-distance romances or set-ups in which partners are unable to see each other consistently. His style in love can be somewhat free and breezy, and possibly noncommittal. He quite naturally accepts the idea that his partner might need some personal space and freedom.

## 23 Trine between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off

by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

#### 11 Trine between Venus - Lilith

This aspect suggests charm, beauty, attracting others by his magnetism. He is intense in love. Feelings are complicated. There can be brooding. However, he is inclined to embrace, accept, and understand the darker side of his nature.

#### 21 Sextile between Venus and the North Node

This aspect indicates diplomacy and attractiveness. There is a certain luck in meeting others at the right times. There is skill in harmonizing and much desire to cooperate rather than compete.

#### -16 Square between Venus - Ascendant

He may go to excess with his pleasures, frequents doubtful company, may come across differently than expected. He is very spendthrift, but spreads his money around his circle. His friends may be more self-interested than sincere.

### Mars

Mars represents the desire for action and physical energy.

### Mars is in Gemini

Mars is the planet that rules our drive and passions. In the mutable air sign of Gemini, Mars is a little scattered and unfocused. Easily bored, Mars in Gemini natives need a fresh change of pace frequently just to keep energy levels up. It's a somewhat odd thing, really. When there's nothing much to do, these natives are exhausted. But if there's plenty of interesting things on their agenda, Mars in Gemini natives can be powerhouses! More than most people, these individuals have a physical reaction to boredom. Besides possessing a passion for words, when Mars in Gemini natives get angry or fired up, they use words as their "weapon". Angry words--some of the most incisive and sarcastic ones--can fly around with the more energetic natives. Others simply talk things through--energetically! Whatever the case may be, Mars in Gemini natives need to get everything off their chests when they're fired up.

In fact, debates are a Mars in Gemini specialty. These natives draw on their sharp wit to win arguments. In general, they can be talkative sorts, sometimes bordering on verbal diarrhea. Those whose charts show more reserve only become chatty when they're worked up about something or the other. Some people with this position of Mars are quite fidgety. They have much nervous energy. In general, their nervousness and restlessness are at the root of plenty of physical ups and downs. When they're on edge, they can be nitpicky. Many Mars in Gemini natives channel their energy through their hands. Gemini, after all, rules the hands; and these people often express energy through musical instruments and the like--even video games. Many are attracted to puzzles and games as diversions. These natives are very adaptable, often thriving on change. They often take up many projects at once, spreading themselves thin at times. Sustained interest is not especially common with this position of Mars. Most will benefit from attempting to focus their energies rather than scattering them. However, their versatility and disdain for routine generally means Mars in Gemini natives are busy people.

## Mars in VII: Mars is in the seventh house

He may dominate his associates or colleagues. He is the same in his love life, perhaps dominating the partner and this makes for a stormy relationship. Or, the energy of Mars is "met" through a partner, and the partner is especially active, assertive, and energetic. There can be a marked impulsive tendency in your one-to-one relationships. Certainly, you need your connections to maintain a high level of passion and energy. You can be particularly good at mediating, counseling, troubleshooting, debate, politics, or working with the law.

### -22 Square between Mars - Saturn

It's vital to seek out financial advice for significant ventures.

## Pluto

## Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

## Lilith in Taurus

Can have a hard time feeling truly satisfied or sated, but can also fear the state of wanting. Perhaps they were penalized or criticized for being slow, savoring things, or enjoying and indulging themselves. Fear of loss can lead to possessiveness. Understanding and accepting the very human desire to *own* and *have* and expressing these things moderately and responsibly can be empowering.

## North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

## True North Node in Scorpio

He is learning to be less self-reliant and set in his ways, as the path to greater success and satisfaction is to share the load from time to time. He tends to stick with his habits, methods, and things. Learning to loosen this grip opens him to his deeper need for transformation, intimacy, change, and regeneration. Qualities to develop: Courage to make changes, going all in, sharing, intimacy.

*House I* is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

### Leo with a Sagittarius Ascendant

This is a double dose of Fire. He is passionate, self-important, fiery, vital, and charged. His sincerity is notable and attractive. He needs to take the time for reflection and self-soothing, calm, objectivity. He is open, vibrant, and somewhat theatrical. He seeks people who are truthful. He lives his truth, delivering good vibes to the world.

### Ascendant is Sagittarius

The world is filled with adventure, new things to experience, and, most of all, hope, with this Ascendant. There is an unmistakable faith and enthusiasm with Sagittarius rising people. Grand schemes, big promises, and a willingness to explore and experiment are themes, although follow-through is not a strong characteristic of Sagittarius. These individuals are somewhat restless and often active people. They always seem to be looking for something that is just out of grasp -- and many do this their entire lives. They can be quite direct at times, yet they are likable enough to forgive for

their faux-pas. Most have a lot to say and offer. Their insights and opinions are usually interesting and exciting, although sometimes lacking in details.

Sagittarius rising people have opinions about everything, and they just love telling others exactly what they are. Not all people with this position are outgoing folk, but they all have a way of moving about that at least exudes a certain level of confidence. Some might even call them naive or overly optimistic. Even the quiet ones don't shrink from life and from experience. One of the most obvious and endearing traits of Sagittarius rising is their willingness to keep up a sense of humor. Even when they're feeling low, they manage to find humor in life and have fun with whatever they do have. The placement of Sagittarius' ruling planet, Jupiter, will give more clues to how they go about expressing themselves. Jupiter in Capricorn, for example, might give a more sarcastic approach, but underneath there lies an unmistakable hope and spirit for living.
