Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

: Ascendant or house
chart in that case.

^ Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the

sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

BIRTH CHART

This birth chart report shows the positions of the planets for Matt.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Scorpio

Scorpios are known for their intensity. They are determined folk who absolutely throw themselves into whatever they do, but getting them to commit to something is rarely easy. In fact, it's better not to even try to "get them" to do anything. Solar Scorpios have their own mind. And, their primary motivation is unlikely to be prestige (like their Capricorn friends) or even authority (Leos can have that, too)--it's real power. Their power can be of the "behind the scenes" variety, just as long as they have it.

To others, Scorpios seem to have plenty of willpower. They probably do. Scorpios know what they want and won't go out and grab it at the wrong moment. They sit back, watch (quite expertly), and then get it only when the moment is just right. It might seem like patience, but it's more likely their powerful skills at strategy at work. Scorpios aren't afraid of getting their hands (their bodies, their minds) dirty. The darker side of life intrigues them, and they're always ready to investigate.

Scorpios never give up. They have tremendous staying power. They're not in the slightest intimidated by anybody or anything. Confrontations are not a problem. In fact, talk to any Scorpio about their lives, and you'll probably be in awe at all they've gone through. Trauma seems to follow them wherever they go. When Scorpio learns optimism, instead of expecting the worst, they'll find that they possess amazing regenerative powers -- the power to heal, create, and transform.

Short description:

Physical energy and courage. Strong passions. Regeneration and improvement. Strong sexual powers.

Potential issues: He is suspicious, defiant, extremist; he is sometimes vindictive.

Scorpio with ascendant Pisces

Sun in VIII: The Sun is in the eighth house

You have a great urge to go farther or deeper into life every step of the way. You want to experience more, and your desires are both powerful and intense. It's hard for you to find satisfaction in common experiences, and you have magnetic power if you choose to use it wisely. You are fascinated with what lies under the surface, and at some point in your life, self-improvement is a big interest. You are attracted to unexplored or taboo areas, and you avoid all things superficial. Financial problems may ease after marriage.

Key points:

He has grit and staying power and talent with handling others' resources. He can be intense, secretive, or obsessive, with a strong belief in the powers of

can be intense, secretive, or obsessive, with a strong belief in the powers of transformation, growth, and improvement. A natural psychologist.

119 Conjunction between the Sun and Mercury

Because your ego and mind are usually on the same page, you possess abundant mental energy. You are always in a position to think about what you want, and in many ways, this is an interruption of the will. You are highly intelligent with a great drive to communicate with others. You invest a

lot of pride in your intellectual capacities. You may not always listen as well as you speak, however, because you're too busy thinking about what to say next! But you are very curious, and although you enjoy expressing yourself, you usually don't dominate conversations completely.

Regarding studying or learning, you are better off reading the material than listening to a teacher. These traits come from a strong need to actively participate in communications. It is tough for you to listen passively and absorb information.

Your opinions are usually strong, and you are an independent thinker. You tend to be proud of your ideas and thoughts and might easily get a bruised ego if you are not "heard" or if your opinions are pushed aside, ignored, or criticized. You are expressive and possibly a very animated speaker. You are also very witty; others enjoy your playful and sometimes mischievous sense of humor.

Key traits: He is verbal, intelligent, observant, and sometimes nervous or wired.

438 Conjunction between the Sun and Venus

You are charming and easygoing. Social relationships are extremely important to you. Being personally popular can be important to you, or you

want to come across in a pleasant way and to be liked and appreciated. Sometimes, vanity is part of the package.

Venus is a peace-making, harmony-loving planet, and those with Sun conjunct Venus do their best to seek peace and harmony. You are diplomatic and a veritable expert at smoothing over (and sometimes glossing over) problems. You are openhanded with others, tolerant, and accepting.

When expressed negatively, you can be superficial, two-faced, or very much tied up with appearances. You might be too agreeable, too pleasant (at the expense of honesty), and downright lazy at times.

However, this position graces you with lovely qualities. You have a fine eye for style and enjoy pleasing surroundings. You generally dress well and enjoy a certain amount of luxury. You are gracious, romantic, and sometimes romantically impulsive. Often relying on the power of attraction to bring people to you, you're not into aggressively pursuing social or love interests. There can be some vanity involved here--you are most attracted to people who express interest in you or who respond well to your charms! You are not the type of person who overtly pursues people who appear indifferent to you.

You are not competitive in the aggressive sense of the word, and you are not someone who loves a good chase. Instead, you work your charms and draw people to you. Your ability to attract others (Venus) is very much tied up with your ego (Sun). Because Venus rules all things feminine, all those with this aspect tend to be quite attractive.

Key traits: He is warm, charming, gracious, polite, and likable. Sometimes, he can be self-indulgent.

-139 Square between the Sun and Jupiter

You have abundant optimism. Even with ups and downs, you tend to hook onto a new plan or goal and believe in it wholeheartedly. Although your intentions are good, you often overdo things. For example, you might gloss over realistic details and get into debt, overindulge in pleasures, or promise more than you can deliver. For the most part, you find help for your excesses. Somebody's usually there to help, as most believe your heart is in the right place. While this is usually the case, if excessive behavior becomes

a pattern and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system," relying on others to help you out a little too often.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Your good humor and resilience are admirable. The tendency to live beyond your means can remain a potential threat that you might struggle with for much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods are so marked that they seem unnatural, and a fall seems inevitable. You can make promises you intend to keep but need help with follow-through. Self-control is something you learn with time and experience. Your talent lies in the big picture or the great idea. Knowledgeable and generous with your time, you have many talents that you shouldn't take for granted.

231 Sextile between the Sun and Neptune

There is an unmistakably dreamy, inspired, and sensitive side to you. A marked appreciation for music and the arts is present. The connection of Neptune with the Sun, which represents the ego and the will, certainly softens some of the hard edges that might be found elsewhere in the chart, adding a sensitive and spiritual dimension to your personality.

You are naturally compassionate. It is so completely natural for you to accept that there is more to the world than what's before your eyes that you absent-mindedly presume everyone must be spiritually inclined. Of course, you come to realize that this is not the case at some early point in your life.

Your attraction to spirituality and metaphysical subjects is usually marked. This aspect favors writers, artists, and musicians. You are sensitive to those suffering, although you are not usually taken advantage of.

You are humanitarian and may have a special connection with animals. If other aspects and positions in the chart support it, you are not one to dominate others or assert yourself to the point of brashness. You have a fertile imagination, are full of inspiration, and are very emotional - all qualities you could use successfully on the professional level.

Key traits: He is naturally and genuinely empathetic, compassionate, and intuitive. His observations and insights are unique and fascinating, making him an original and helpful guide. He has a gentle nature that picks up on subtle cues from his environment.

303 Conjunction between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to

heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: He is creative, ambitious, and ready to transform or improve matters. He benefits from his willingness to improve, reform, and change. He has determination and willpower and can readily turn around a situation.

1 Trine between the Sun and Ascendant

It comes easily and naturally for others to receive you well. There is a distinct air of authority and benevolence surrounding you. The authority you project typically doesn't offend others, primarily because people sense your sincerity simultaneously.

Most people would describe you as natural, easy to like, and friendly. You have a marked interest in the performing arts and/or sports and games, either as a spectator or participant. This is an especially favorable aspect to have for those who are in the public eye.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Gemini

People with Moon in Gemini are always interesting people--they have a finger in every pie, are curious to a fault, and are generally well-informed. Nervousness and worry are common traits with this lunar position. Lunar Geminis are usually pleasant, witty, and charming people. At home and with family, however, they can be moody and irritable at times. An underlying restlessness is common, and many Lunar Geminis need more stimulation than others. They usually read a lot, talk a lot, and think a lot with this airy, mutable position of the Moon.

Their homes are often a perpetual work-in-progress. They generally dislike housework but are big on home improvement. Re-organizing their homes in little--and sometimes big--ways seems to keep them happy, as Lunar Geminis are easily bored by both routine and constancy. Often, this is a reflection of their inner world--"the grass is always greener..." applies here. Inwardly, Lunar Geminis can be unsettled. Moon in Gemini people are often more adept at handling the intellectual needs of their loved ones than emotional ones. They prefer to sort out others' complicated emotions mentally or verbally.

In their families, Lunar Geminis often take on the role of organizing get-togethers. They are at their best when they have plenty of things to do beyond the routine. Moon in Gemini people almost always have a way with

words. They are clever and witty, and more often than not, can be found chatting with others. They are sociable and friendly, and feel comfortable in crowds. Some pay too much attention to what everyone else is doing and lose touch with what they really want to do. Generally, Lunar Geminis have a million and one projects going. They are impressionable folk, and their imagination is boundless.

Their openness to new ideas is admirable, although decisiveness and persistence take a blow as a result. Still, versatility and adaptability are some of the stronger traits of this position of the Moon. When irritable, they can easily become snappy. Their moodiness is complicated--this is not the same kind of moodiness you'll find with water sign moons, for example. Usually, difficult behavior stems from inner restlessness. Lunar Geminis want to do it all, and have trouble sticking to any one project.

When problems arise, the first instinct of Moon in Gemini natives is to talk things out. Their tendency to analyze can give them the appearance of emotional detachment. In fact, Lunar Geminis may be especially comfortable talking about their feelings, but feeling their own feelings doesn't come as easily! Those who don't take time out to emote and understand their own needs may end up baffling others. Feeling misunderstood is common for Moon in Gemini natives. The only real solution to the problem is learning to get in touch with their feelings.

Short description:

Sharp intellect. He likes literature and will adapt to all situations and social groups. Work in contact with the public, literary occupations, travel.

Potential issues: lack of follow-up of ideas, indecision, may go back on decisions.

Moon in III: The Moon is in the third house

Key traits: Highly imaginative, but may have difficulty concentrating. He fantasizes frequently. Mental diversity, quick to learn, observant, enjoys studies, may be fidgety, move around a lot, or travel frequently.

You are very responsive, communicative, and curious. You can have a talent for imitating others and/or picking up languages. You might either

intellectualize your emotions rather than truly feel them and deal with them, or you communicate with excessive emotion. Some of you may do both at different times and, as you mature and develop, you learn to find a balance.

Your opinions and ideas change often, and you might sometimes adopt others' points of view and express their ideas as if they were your own. This is not because you are a copycat but because you sometimes fail to own your own thoughts and are very sensitive to others' opinions. You're simply very quick to pick things up.

Often nervous and restless, you require frequent changes of scenery, even if the movement or travel takes place locally. You can have friends that are like siblings, and you're very attached to connections made in childhood. You make an excellent teacher and interesting conversationalist.

104 Conjunction between the Moon and Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You can be a sexual person who nevertheless doesn't get too carried away or controlled by your passions.

Because your emotions are strong and you know how to direct them into constructive channels, you don't automatically understand such things as

"crimes of passion," impulsive behaviors, or emotional excitability in others.

You're generally open, accepting, and natural in your sexual expression. You need an emotional connection to feel complete on a physical level.

You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: He is frank, honest, full of vigor and ambition. He is strong-willed and powerful at work. He is a little hard on himself and sometimes on others whose capacity for action is not as great or inherent. On an emotional level, craving action or activity.

64 Sextile between the Moon and Jupiter

He is generally pleasantly composed, due to an inner sense of harmony and emotional balance. He is optimistic--and realistically so, most of the time--which contributes to his overall "luck."

He is able to get a real perspective on emotional matters that not only benefits his outlook, but also he is able to offer support to others when needed.

Broad-mindedness is a wonderful characteristic. Quickly finding humor in situations, he is generally warm and fun to be around.

Deep down, he believes in the basic goodness of people and of life in general, and this fundamental and natural attitude helps him to attract positive circumstances and to make good connections.

One of his best qualities is tolerance. Usually, he doesn't take life too seriously in the sense that he believes in having a bit of fun, enjoying life.

His hunches are more often than not bang-on.

Key traits:

He is frank, honest, optimistic, and generous. He likes good cooking and other creature comforts. His friendships are sincere. He is smart and knows how to surround himself with the right people: He is appreciated at work, usually well-liked, and comfortable, seeing the bright side/humor, especially

in the mundane. He is fair, always seeking the truth.

-139 Opposition between the Moon and Lilith

Love-at-first-sight is to be avoided, as it will make one forget all other duties and lead to problems. There can be obsessions. Emotions can take over the life at times.

-22 Square between the Moon and Ascendant

He can be unhappily influenced by the family or childhood, or otherwise feel rather insecure about new beginnings and new situations. He may always seek more love, appreciation, and feedback.

He is susceptible, perhaps with some superficial sensitivity, and can sometimes be irascible, changeable, inconstant, and moody. However, he is usually highly intelligent, observant, and adaptable, and very often misunderstood, projecting the wrong image more often than is comfortable.

-35 Opposition between the Moon and Midheaven

He can have an irresolute nature, with sudden changes of humor. He is changeable, not always following through on his own objectives since these change often. This instability shows itself not only in professional life but also

in love life and friendships. There can be a love-hate relationship with one's status or reputation. He may often feel misunderstood by parents, teachers, or bosses as the wrong image may be projected.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Scorpio

He is extremely observant and astute, always reading between the lines and looking for the real meaning behind things. Passionate in speech, excellent at strategy. Natural psychologist.

Mercury in VIII: Mercury is in the eighth house

He likes research, investigations, inquiries. Studies well.

He is fascinated with all that is unexplored, mysterious, taboo, secret, and psychological. He loves research and has a great mind. He wants to know the motivation behind what people do. May have a good mind for financial strategies. He may be tormented at night, unable to turn off the mind to rest deeply at times.

You speak with authority and others listen, having strong persuasive powers which should be used carefully. You tend to feel that everything we do and experience has a purpose. You have a great, investigative, and penetrating mind and you are excellent at developing strategies, as well as communicating them with others.

103 Conjunction between Mercury - Venus

He looks on the bright side of life. He is gay, agreeable, optimistic, sociable. He enjoys speaking and writing, and he does both with charm and artistry. His intellectual pleasures are very much influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts, travelling, frequent changes of scenery. Aims always for diplomacy. Very charming.

340 Sextile between Mercury - Saturn

He is precise or strives to be mentally organized. He is able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. He may take time to get communications "just so" and prefers step by step directions. Respects tradition and rules, preferring a sense of order.

381 Conjunction between Mercury - Pluto

He has a great sense of observation and quickly grasps and sizes up the situation. He is crafty, subtle, and perceptive.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Scorpio

Venus in Scorpio people attract others with their intensity and willingness to commit. They have a strong and concentrated manner which suggests their feelings run deep. Their actions in love tend to promise deep commitment and sexual pleasure, even if they are not telling you this directly. Their appeal lies in their focus on you and their dedication. Venus in Scorpio

appeal lies in their focus on you, and their dedication. Venus in Scorpio seems fearless when it comes to intimacy. Potential lovers get the feeling that Venus in Scorpio will never stray, that they are intensely loyal to the one they love. They possess you, and somehow make it seem attractive to be possessed.

Venus in Scorpio natives give you their complete attention. These people are very focused on their partners. Depending on your personality, you may find this unnerving or entirely flattering. They have a strong need to control their

partner, although this won't be immediately apparent, and they may not ever admit to this. Their body-and-soul love and commitment can be so intense that it eclipses fun and makes loving them a very heavy experience. Their emotion and intensity may seem overdone to those looking for a more lighthearted relationship. These people take things to extremes, and can be very provocative. Although they want to explore all of your nooks and crannies, they won't always be forthcoming with their own. When you've upset these lovers, you'll know it. Depending on the moment, Venus in Scorpio will shoot you one of the most piercing glares around, or totally blow up. Whichever style they choose, a slighted Scorpio lover is not a pretty sight. These people can be jealous of all of your attachments, but few will admit it. They're not afraid of being underhanded in matters of the heart, and they are experts at cutting through all the fluff and seeing you for what you are. Still, you may find their conclusions about you seem skewed and mistrustful.

Pleasing Venus in Scorpio involves demonstrating your complete commitment and loyalty to them. Appreciate their guts when it comes to love and intimacy -- they're proud of their courage in these matters. If you can, and they're deserving, relinquish some of the control in the relationship. Let them feel they own you, without taking it to extremes. Remember, though, that some Venus in Scorpio lovers can and will take advantage of you on a subtle level, if only to keep you all to themselves. Let them have their secrets and their silences.

Short description: Sensual and passionate. Passions run hot and cold. Full of ardor and desire where the partner needs to be able to match his level. Can be jealous and possessive. If disappointed or deceived in love, he can become bitter. Usually very loyal.

Venus in VIII: Venus is in the eighth house

Not frightened by the unknown. Sometimes this position means he has a peaceful and happy or natural end of life. Possible inheritance.

Intensity is what you seek in your love relationships, so that casual encounters are not necessarily your game. You are easily bored with mechanical interactions between partners, and might prefer drama in your relationships to anything mundane or superficial. However, you also fear being vulnerable in love, and, in youth, you may control your emotions in love. Fears of being betrayed may be at the heart of your somewhat jealous and possessive nature in love. When you give yourself over to love, you love wholeheartedly and expect all-consuming, total devotion and attention in return. You find passion a healing force in your life. Your charm runs deep-- just below the surface. You are attracted to all that is taboo, hidden, forbidden, and find beauty in the broken, disenchanted, obsessed, and passionate. In some cases, people with this position might make a business out of love, romance, and eroticism. There is an intensity about you that others pick up readily. Either they run or they are completely intrigued!

-79 Square between Venus - Jupiter

He is nonchalant, perhaps pretentious or self-important. He likes what is beautiful and sometimes ostentatious, perhaps spending money too quickly at times. He likes to please and can have numerous amorous adventures. He can undergo tribulations in love. May take things to excess, which

sometimes interferes with a smooth flow.

He is big-hearted and warm, with an open heart and a tendency to want to give a lot to the people he loves. He can have some problems with following through on his promises, however, not usually because of any ill intent, but because he sometimes overestimates his personal capabilities, wanting to do more and give more than is actually possible. He may have a tendency to live beyond his means. He needs to be cautious about the tendency to feel

overly-optimistic or overly protected. Moderation is the most important, and perhaps challenging, lesson in his life.

110 Sextile between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

181 Conjunction between Venus - Pluto

His emotional and sex life can be powerful and rich. He lives out truly passionate love affairs. Extremely resourceful, he is also excellent at determining the worth or value of material things. He can help others to discover their own worth as well. He is naturally attracted to relationships that transform him, that are growing and evolving, and that are intense. He

can use his strong intuition and understanding of others for good or for bad, and this depends largely on other aspects in the chart. He can be highly devoted and passionate to the things (and people) he loves. He can be quite persuasive.

Mars

Mars represents the desire for action and physical energy.

Mars is in Gemini

Mars is the planet that rules our drive and passions. In the mutable air sign of Gemini, Mars is a little scattered and unfocused. Easily bored, Mars in Gemini natives need a fresh change of pace frequently just to keep energy levels up. It's a somewhat odd thing, really. When there's nothing much to do, these natives are exhausted. But if there's plenty of interesting things on their agenda, Mars in Gemini natives can be powerhouses! More than most people, these individuals have a physical reaction to boredom. Besides possessing a passion for words, when Mars in Gemini natives get angry or fired up, they use words as their "weapon". Angry words--some of the most incisive and sarcastic ones--can fly around with the more energetic natives. Others simply talk things through--energetically! Whatever the case may be, Mars in Gemini natives need to get everything off their chests when they're fired up.

In fact, debates are a Mars in Gemini specialty. These natives draw on their sharp wit to win arguments. In general, they can be talkative sorts, sometimes bordering on verbal diarrhea. Those whose charts show more reserve only become chatty when they're worked up about something or the other. Some people with this position of Mars are quite fidgety. They have much nervous energy. In general, their nervousness and restlessness are at

the root of plenty of physical ups and downs. When they're on edge, they can be nitpicky. Many Mars in Gemini natives channel their energy through their hands. Gemini, after all, rules the hands; and these people often express energy through musical instruments and the like--even video games. Many are attracted to puzzles and games as diversions. These natives are very adaptable, often thriving on change. They often take up many projects at once, spreading themselves thin at times. Sustained interest is not especially common with this position of Mars. Most will benefit from attempting to focus their energies rather than scattering them. However, their versatility and disdain for routine generally means Mars in Gemini natives are busy people.

Mars in III: Mars is in the third house

Lively spirit, alert and ingenious but can be sarcastic, critical, provocative. He is quarrelsome at times. He expresses himself easily, does what he wants: success is at the end of the road. He is capable and acts quickly.

You tend to know a lot about a variety of subjects, and like to share that knowledge with others (sometimes too forcefully!). You are generally very direct and clear when it comes to communicating. You can easily get worked up about what others might think are trivial matters. You love a good debate. Whether you know it or not, or no matter your intentions, you can be provocative in your communication style. You are likely gifted with manual dexterity, although you might easily become impatient with tasks. At your best, you are enthusiastic, animated, and lively in the way you express yourself, and this can inspire others. You will fervently defend your opinions and beliefs, as well as your family and childhood.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

True North Node in Aquarius

His path is to learn to be more impartial and less possessive in relationships and with creative projects. As he learns to let go of the need for a passionate chase, satisfaction will come to him naturally as he sees that he nevertheless gets what he needs. Relationships may suffer if he takes things too personally and expects others to follow a script that he has unconsciously written for them. He learns to moderate his desire for drama and attention, and then develops true friendships. Qualities to develop: detachment, impartiality, humility.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Scorpio with ascendant Pisces

Ascendant is Pisces

"Go with the flow" seems to be a Pisces rising motto. They move about the world in a vaguely directionless, gentle manner. They come across as artists and lovers of peace; but their open minds and hearts can give them a chameleon-like persona. Others are not always sure who they'll meet from one day to the next with a Pisces rising person. Although often quiet and shy, another day may find them talkative and passionate. They are hugely impressionable, have a dreamy disposition, and project a soft-hearted personality. Pisces rising sees the world the way they want to see it at any given time, so objectivity is not necessarily a strong point. Neither is decision-making! People with Pisces rising resist any kind of labeling--their characters are changeable, and they don't want to be pinned down or pegged in any way. Theirs is a restless, searching nature that cannot be happy with any one way of living or being. Pisces rising avoids cold, hard facts and harsh realities like the plague. They don't have a decisive plan for tomorrow or even today, preferring to keep things open. Since they change their minds frequently enough, and like to "feel" their way through life, too much organization or structure can be seen as very limiting.

Pisces rising people walk around with their heads in the clouds, and even when you do have their attention, their dreaminess is almost always apparent. These people look for a stable partnership--one that is reliable. Pisces rising people gravitate to partners who keep them on their toes, and they often will pass off the little details and reality checks to their significant other. They seem to need a practical, realistic partner. Pisces Ascendants often have a sensitivity to drugs, and sometimes are prone to allergies that come and go. Their physical constitutions seem to be less resistant than most. Pisces rising people often possess an irresistible charm that comes on in a quiet way, with a soft aura about them. Both their appearance and

mannerisms are usually quite intriguing to others.
